

Carpenter Family Cabin

Check-in Procedure

1. Enter cabin through back door
2. No shoes allowed past laundry room.
3. Turn water on. Blue handle in laundry room, on the right side from the back door.
4. Turn on water filter. Press and hold the charge button for 5 seconds. (should be flashing charge and water should start cycling.)
5. After water filter is done with first cycle (could take about 2 hours), press charge button until recharge tonight is flashing.
6. Turn on water heater using the breaker panel on the left from the back door. Last breaker on the right column
7. Set thermostat to desired temperate. Thermostat is located on small wall between kitchen and living room. Flip cover down from the top of thermostat. Adjust temperature using up or down arrows, then press Temp Hold. The word hold should be displayed next to the current temperature.
8. Open blinds
